

### **It's a small price to pay**

Ah, that daily takeaway coffee on the way to work – it's a little bit of luxury for just a couple of pounds.

But for less than that<sup>1</sup>, you could provide something even more satisfying: peace of mind for you and your loved ones.

### **An essential ingredient**

Far from being a luxury, Family Protection (or more specifically, Life Insurance, Critical Illness Cover and Income Protection) should be considered essential – especially if other people rely on your income.

It can provide funds to help deal with the financial consequences of illness, an accident, unemployment or death. In such uncertain times, it can be reassuring to know those you care most about are protected, should the worst happen.

So next time you find yourself struggling to choose between the latte or the mocha, why not consider a third option: the long-term financial security of you and your family.
